

Help Is On The Way
(Christy Sutherland, Kyle Matthews)

When you're down in the valley
The mountains seem so high
When they look down on you
It's like they're daring you to try
But you climb on clinging to what God has said
And when you're weary
And you're hanging by a thread

Chorus:

Hold on, help is on the way
God knows what you need
And how much you can take
It may not come tonight
But God is never late
Hold on, help is on the way

You're not the first one
To ever walk this road
There's a cloud of witnesses
That surrounds us here below
And you've got a Father
Whose ways are higher than our ways
You know Joseph went from the prison
To the palace in one day

Chorus x2

I know my God will keep you
He's never, never forsaken one, no
Oh, He's a good God
Help is on the way
