

God Is In This Place
(Regi Stone, Christy Sutherland)

God is in this place
Can you feel Him?
Inhabiting our praise
He is here

Lost in His embrace
Wrapped in mercy
He is all you'll ever need
God is in this place

Chorus:
We are surrounded by His grace
Feel the Spirit brush your face
Heaven's come to earth today
You will never be the same
God is in this place

God is in this place
He can heal you
There's power in His name
He is here

The atmosphere is changed
By His presence
And darkness has to leave
God is in this place
