

Keep On Waiting
(Christy Sutherland)

The disciples waited
For power from on high
So many questions
Must've filled their minds
But the Father He was faithful
And He sent the Holy Ghost
I know He's still able
To give you what you need the most

Chorus:

Keep on waiting, keep on waiting
And the promise will come down
Keep on waiting, keep on waiting
And the promise will come down

You may feel hopeless
Where you are right now
Worn from the battle
Knees to the ground
But the Father sees you're hurting
And a breakthrough's on the way
Your situation's turning
With every word you pray
So...

Chorus

Bridge:

As you rest, strength will rise
Expect your God to bring you out in time

Chorus
