

Somebody Died For Me
(Kyle Matthews, Christy Sutherland)

He was a troubled kid in and out of jail
When his daddy said this is the last time I'll pay bail
He enlisted in the army and they sent him to Iraq
He was a different man when he came back
Somebody said the army must've whipped you into shape
But he said that's not the reason that I've changed

Chorus:

Somebody died for me
Before I even asked for help
Gave his life for me
When I couldn't save myself
I cannot live the way I lived
Or be the way I was
Everyday's a gift to me because
Somebody died for me

Now they fold the flag and attach a silver star
While a grieving mother leans against his arm
Then he stands before the family and does his best to tell
How he survived the night his best friend fell
He says no one who knew him was surprised he died that way
He tried to live for Jesus, he always used to say

Chorus

Bridge:

I don't wanna waste a moment of the time I have left
With every breath I'm given God help me not forget

Chorus
